

REPORTABLE DISEASES AND CONDITIONS

Title 17, California Code of Regulations (CCR), § 2500

It is the duty of every health care provider, knowing of or in attendance on a case or suspected case of any of the diseases or conditions listed below, to report to the local health officer for the jurisdiction where the patient resides. "Health care provider" encompasses physicians (surgeons, osteopaths, oriental medicine practitioners), veterinarians, podiatrists, physician assistants, registered nurses (nurse practitioners, nurse midwives, school nurses), infection control professionals, medical examiners/coroners, dentists, and chiropractors, as well as any other person with knowledge of a case or suspected case.

Note: This list is specific to Los Angeles County and differs from state and federal reporting requirements *

☎ Report **immediately** by telephone for both confirmed and suspected cases.

NOTE: Monkeypox is an unusual disease which requires immediate report by telephone or Weblink.

① Report by telephone **within 1 working day** from identification **COVID-19 Online Reporting**** OR **COVID-19 Death Online reporting*****

☒ Report by electronic transmission (including FAX or email), telephone or mail within **1 working day** from identification

⑦ Report by electronic transmission (including FAX or email), telephone or mail within **7 calendar days** from identification

★ **Mandated by and reportable to the Los Angeles County Department of Public Health**

± If enrolled, report electronically via the **National Healthcare Safety Network** (www.cdc.gov/nhsn/index.html). If not enrolled, use the LAC DPH **CRE Case Report Form** (publichealth.lacounty.gov/acd/Diseases/EpiForms/CRERepSNF.pdf)

■ For TB reporting questions: contact the TB Control Program (213) 745-0800 or visit www.publichealth.lacounty.gov/tb/healthpro.htm

■ For HIV/STD reporting questions: contact the Division of HIV and STD Programs. HIV (213) 351-8516, STDs (213) 368-7441

REPORTABLE DISEASES AND CONDITIONS

Title 17, California Code of Regulations (CCR), § 2500

It is the duty of every health care provider, knowing of or in attendance on a case or suspected case of any of the diseases or conditions listed below, to report to the local health officer for the jurisdiction where the patient resides. "Health care provider" encompasses physicians (surgeons, osteopaths, oriental medicine practitioners), veterinarians, podiatrists, physician assistants, registered nurses (nurse practitioners, nurse midwives, school nurses), infection control professionals, medical examiners/coroners, dentists, and chiropractors, as well as any other person with knowledge of a case or suspected case.

Note: This list is specific to Los Angeles County and differs from state and federal reporting requirements ★

☎ Report **immediately** by telephone (for both confirmed and suspected cases)

NOTE: Monkeypox is an unusual disease which requires immediate report by telephone or [Weblink](#).

OCCURRENCE OF ANY UNUSUAL DISEASE

OUTBREAKS OF ANY DISEASE, including diseases not listed above. Specify if in an institution and/or the open community

- Anthrax, human or animal
- Botulism: infant, foodborne, or wound
- Brucellosis, human
- Chickenpox (Varicella), only hospitalizations, deaths, and outbreaks (≥3 cases, or one case in a high-risk setting)
- Cholera

- Ciguatera Fish Poisoning
- Diphtheria
- Domoic Acid (Amnesic Shellfish) Poisoning
- Flavivirus infection of undetermined species
- Foodborne Outbreak; 2 or more suspected cases from separate households with same assumed source
- Hemolytic Uremic Syndrome
- Influenza, due to novel strains, human
- Measles (Rubeola)
- Meningococcal Infection

- Middle East Respiratory Syndrome (MERS)
- Novel virus infection with pandemic potential
- Paralytic Shellfish Poisoning
- Plague, human or animal
- Rabies, human or animal
- Scombrotoxic Fish Poisoning
- Shiga Toxin, detected in feces
- Smallpox (Variola)
- Tularemia, human
- Viral Hemorrhagic Fevers, human or animal (e.g., Crimean-Congo, Ebola, Lassa and Marburg viruses)

① COVID-19, hospitalizations ([COVID-19 Online Reporting**](#))

① COVID-19, deaths ([COVID-19 Death Online Reporting***](#))

① Human Immunodeficiency Virus (HIV), acute infection (telephone within 1 working day)

✉ Report by electronic transmission (including FAX or email), telephone or mail within **1 working day** from identification

- Babesiosis
- Campylobacteriosis
- *Candida auris* ★
- Chikungunya Virus Infection
- Cryptosporidiosis
- Dengue Virus Infection
- Encephalitis, specify etiology: viral, bacterial, fungal or parasitic
- *Escherichia coli*, shiga toxin producing (STEC) including *E. coli* O157
- Foodborne Disease
- *Haemophilus influenzae*, invasive disease only, all serotypes, less than 5 years of age
- Hantavirus Infection
- Hepatitis A, acute infection

- Listeriosis
- Malaria
- Meningitis, specify etiology: viral, bacterial, fungal, or parasitic
- Paratyphoid Fever
- Pertussis (Whooping Cough)
- Pesticide-Related Illnesses (Health and Safety Code §105200)
- Poliovirus Infection
- Psittacosis
- Q Fever
- Relapsing Fever
- Salmonellosis, other than Typhoid Fever
- Shigellosis

- *Streptococcus pneumoniae*: Invasive cases only (sterile body site infections) ★
- *Streptococcus pyogenes* (Group A *Streptococcus*): Invasive cases only, including necrotizing fasciitis and STSS ★
- Syphilis, all stages including congenital
- Trichinosis
- Tuberculosis
- Typhoid Fever, cases and carriers
- *Vibrio* Infection
- West Nile Virus (WNV) Infection
- Yellow Fever
- Yersiniosis
- Zika Virus Infection

⑦ Report by electronic transmission (including FAX or email), telephone or mail within **7 calendar days** from identification

- Anaplasmosis
- Brucellosis, animal; except infections due to *Brucella canis*
- Cancer, including benign and borderline brain tumors (CCR §2593)*
- Carbapenem-Resistant *Enterobacteriaceae* (CRE), including *Klebsiella sp.*, *E. coli*, and *Enterobacter sp.*, in acute care hospitals or skilled nursing facilities ★ ±
- Chagas Disease ★
- Chancroid
